BCS22
Bachelor of Cybersecurity

The Bachelor of Cybersecurity is three years in duration for a full time student, or six years duration for a part time student. In this course, your core subjects will comprise of 20 subjects. Each year consists of three Study Periods, also known as Trimesters.

Core subjects - compulsory subjects that you must complete
Elective subjects - subjects you can choose between from the Elective Bank below

This course comprises of 22 subjects that you are required to complete: 20 core subjects and 2 elective subjects.

The course contains 3 subject levels - Level 100, 200 and 300, guiding you from foundational through to more complex subjects.
- **Level 100**: 8 core subjects and 0 specialist elective subject
- **Level 200**: 6 core subjects and 1 specialist elective subject
- **Level 300**: 6 core subjects and 1 specialist elective subjects

Prerequisite subject - a subject you must complete before undertaking another subject
Corequisite subject - a subject you must complete with another subject at the same time

RPL - Should you have any Recognition of Prior Learning (RPL) credits that make you eligible for exemptions, please contact your Program Director to discuss further.

How to read the below Suggested Study Pattern (as a Full Time Student):

8 subjects per year make up a full time study load, following a 2 subjects-3 subjects-3 subjects pattern across the year's three Study Periods (Trimesters).

As an example: Following the below pattern, the subjects in your first year would be:
1st Study Period: CAO107 and ITP122 (2 subjects)
2nd Study Period: MIS100, MIS102, and ISE102 (3 subjects)
3rd and final Study Period: CBS131, ICC104 and UED100 (3 subjects)

Studying Part Time? You would still follow the below sequence from top to bottom, but with fewer subjects per Study Period. Any questions? Contact *HelpMeEnrol@torrens.edu.au*
